9 ELEMENTS OF COMMUNICATION

1. Speaker – the source of information or message

Who are the individuals who had the chance to talk during your group sharing/discussion?
Who had the chance to speak?

2. Message – the information, ideas, or thoughts conveyed by the speaker in words or in actions

What did you talk about?

3. Encoding – the process of converting the message into words, actions, or other forms that the speaker understands

How did you communicate with your fellow group mates?

Did you use a technique to let others understand?

4. Channel – the medium or the means, such as personal or non-personal, verbal or non-verbal, in which the encoded message is conveyed

5. Decoding – the process of interpreting the encoded message of the speaker by the receiver

How did your group members interpret the message?

6. Receiver – the recipient of the message, or someone who decodes the message

7. Feedback – the reactions, responses, or information provided by the receiver

8. Context – the environment where communication takes place

9. Barrier – the factors that affect the flow of communication

What are the barriers present during your group discussion?
