Stovekraft Commitment Towards Sustainability

FY23 EMISSION REDUCTION 37016.9 Tons

Giga-Guru, FY23

ENERGY

50% of our energy consumption is sourced from wind & solar energy, amounting to 14.7 million kWh per year

In 2024-25, we successfully reduced CO2 emissions by 9278 tonnes through our sustainability efforts

We prioritize efficient use of daylight in our workspaces & factory areas to minimize energy consumption

WASTE

We recycle 20% of aluminum from scrap into products, amounting to 1200 tons of material, resulting in approximately 620 tons of CO2 emission reduction.

Each year, we treat and reuse 10 million gallons of water through our Effluent/Sewage Treatment Plant, contributing to our water conservation efforts.

PACKAGING

Use of recycled honeycomb paper saves 3.7 tons of polybag per annum.

Value unlock due to CBM saving – $4,88,000 Reduction in damage

STOVEKRAFT®

Women Empowerment & Sponsoring Education

70% of the workforce in Stovekraft are Rural women

At Stovekraft, women from rural backgrounds form the backbone of our workforce. This not only empowers them economically but also uplifts entire communities.

Key Benefits:

- ▶️ Financial independence and improved quality of life
- ▶️ Better access to healthcare and education for their families
- ▶️ Increased productivity, hygiene standards, and operational efficiency
- ▶️ High levels of commitment and meticulous work ethic
- ▶️ Regular training programs to upskill and support continuous development

Community Support & Education Initiatives

EDUCATION

- Adopted a local primary school (175–200 students) covering maintenance, books, and stationery

HEALTHCARE INITIATIVES

- Donated `3 million for free dialysis for underprivileged citizens (May 2023)
- Contributed a Hematology Machine to Harohalli Government Hospital
- Facilitated COVID-19 vaccinations for all Stovekraft staff and workers

INFRASTRUCTURE FOR VILLAGES

- Installed drinking water facilities (Hand Pumps, Borewells, RO plants) in 25 nearby villages

YOUTH SKILL DEVELOPMENT

- Partnered with the Skill Development Dept., Govt of India
- Currently training 800 young individuals (15% of SKL workforce) for future employability

Why Stovekraft?

Pigeon - Most Admired Brand in India

- Pigeon Appliances is a trusted household name in India, admired for delivering quality and reliability to millions of homes.
- Known for its innovation and modern designs, Pigeon consistently brings smart solutions to everyday cooking needs.
- The brand stands out for offering high value at affordable prices, making premium kitchen essentials accessible to all.

Proactive & Resilient

- Swift in-house production ramp-up during COVID-19 to ensure supply continuity

Innovation with Purpose

- Developed the Turkey Fryer to mitigate tariff impacts and reduce China dependency

Vision for Scalable Growth

- Leading the charge in mass cookware manufacturing
- Expanding product lines and investing in new facilities

Future-Ready Infrastructure

- 4M USD Dollars committed towards automation and smart manufacturing

Mutually Beneficial Collaboration

- Strategic product introductions that drive shared success
