School of Innovation and Management (SoIM)

Post Graduate Diploma in Management (PGDM)

Course Outline **PGDM (2024-26)** **Trimester – IV**

Course Code: PGDM-407HR 1	Course Name: WORK FORCE METRICS FOR MANAGERS	Course Credits: 03

Faculty: Ms.K.L.Revathi
Email.ID: revathi.kl@soim.edu.in

Course Coverage: Workforce Metrics for Managers develops the ability of future managers to use workforce data, metrics, and dashboards to understand people-related performance and support business decisions. The course introduces students to workforce measurement, key performance indicators (KPIs), leading and lagging indicators, and the connection between people outcomes and organizational performance.

The course covers practical workforce metrics across hiring, retention, learning and development, performance, productivity, compensation, benefits, engagement, absenteeism, diversity, and workforce costs. Emphasis is placed on interpreting metrics rather than simply calculating them, asking the right managerial questions, identifying workforce risks, and converting data into actionable insights.

Students will also learn the basics of workforce data sources, data quality, Excel-based analysis, dashboard design, and introductory Power BI. Through business cases, managerial scenarios, practical exercises, and a final dashboard project, students will practice communicating workforce insights to managers and senior decision-makers. The course also highlights ethical use, confidentiality, and responsible handling of employee data.

Course Objectives:

Level	Objective
Remembering	Define key workforce metrics, KPIs, indicators, and dashboard concepts used by managers.
Understanding	Explain how workforce measures support managerial decisions and organizational performance.
Applying	Calculate and apply relevant metrics to recruitment, retention, performance, productivity, compensation, engagement, and workforce costs.
Analyzing	Interpret workforce data and dashboards to identify trends, patterns, gaps, risks, and opportunities.
Evaluating	Evaluate workforce practices and recommend actions using evidence from metrics and business context.
Creating	Develop and present a practical workforce dashboard using Excel and/or introductory Power BI for managerial decision-making.

Course Learning Outcomes:

After completing the course, student should be able to: ***Five points for 1.5 Credit Course and Ten points for 3 Credit course***

After completing the course, students should be able to:

1. **Identify** and explain important workforce metrics, KPIs, and dashboard concepts used in managerial decision-making.

2. **Interpret** workforce metrics across recruitment, retention, performance, productivity, compensation, engagement, and workforce costs.

3. **Apply** appropriate metrics and basic calculations to workforce management situations.

4. **Analyze** workforce data and dashboards to identify trends, patterns, gaps, and business implications.

5**. Evaluate** workforce practices and recommend evidence-based managerial actions.

6. **Develop** a clear workforce dashboard using Excel or introductory Power BI.

7. **Present workforce** insights in a concise, business-oriented manner to managers.

8. **Demonstrate awareness** of employee-data privacy, confidentiality, fairness, and ethical use of workforce analytics.

Assessment Tools for Learning Outcome:

Learning Outcome	Assessment Criteria
1. Students should be able to identify and describe the key concepts, types, and importance of workforce metrics and KPIs used in organizations.	Quiz, class participation, mid and end-term exams
2. Students should be able to explain and interpret various workforce metrics and KPIs across functions such as recruitment, retention, learning and development, performance, productivity, compensation, engagement, and diversity.	Quiz, class participation, mid and end-term exams
3. Students should be able to apply appropriate workforce metrics to evaluate workforce efficiency, effectiveness, productivity, costs, and organizational performance	Quiz, class participation, mid and end-term exams
5. Students should be able to evaluate workforce strategies and managerial decisions by linking workforce metrics with business goals such as revenue, cost, productivity, customer outcomes, and organizational growth.	Quiz, class participation, mid and end-term exams
4. Students should be able to analyze workforce data, reports, and dashboards to identify trends, workforce issues, performance gaps, and potential risks.	Quiz, class participation, mid and end-term exams
6. Students should be able to develop workforce dashboards using tools such as Excel and Power BI by applying appropriate data preparation, KPI selection, visualization, and dashboard design principles.	Quiz, class participation, mid and end-term exams

7. Students should be able to design and present workforce reports and dashboards effectively to communicate insights and actionable recommendations to management.	Quiz, class participation, mid and end-term exams
8. Students should be able to demonstrate awareness of ethical considerations, employee data privacy, confidentiality, bias, and responsible use of workforce data and metrics.	Quiz, class participation, mid and end-term exams

Pedagogy: 20 sessions of 90 minutes each (30 hours) using interactive lectures, business cases, workshops, spreadsheet exercises, managerial decision scenarios, role plays, quizzes, discussions, reflections, and dashboard demonstrations. The emphasis is on moving from "metric" to "meaning" to "managerial action."

Session Plan: The course will covered across 20 session of 90minutes each, totaling 30 hours.

The course contents would be as under:

Session	Topic	Key Coverage	Pedagogy
1	Module 1: Workforce Metrics – The Manager's Perspective	Meaning and importance of workforce metrics; evolution of people measurement; why managers need workforce data; linking people decisions to business outcomes	Lecture / Discussion / Case / Activity / Workshop
2	Module 2: Types of Workforce Metrics	Operational vs. strategic metrics; leading vs. lagging indicators; efficiency, effectiveness and outcome measures; choosing the right metric	Lecture / Discussion / Case / Activity / Workshop
3	Module 3: Workforce KPIs and Measurement	KPIs in workforce management; KPI selection; metric definitions; targets and benchmarks; avoiding vanity metrics	Lecture / Discussion / Case / Activity / Workshop
4	Module 4: Aligning Workforce Metrics with Business Goals	Connecting people measures to revenue, cost, productivity, customer outcomes and growth; strategic workforce measurement	Lecture / Discussion / Case / Activity / Workshop
5	Module 5: Workforce Cost and Financial Metrics	Cost per hire; cost of turnover; revenue per employee; workforce cost analysis; interpreting the financial impact of people decisions	Lecture / Discussion / Case / Activity / Workshop
6	Module 6: Workforce Data Sources and Systems	HRIS overview; payroll, recruitment, attendance, performance and engagement data; data	Lecture / Discussion / Case / Activity / Workshop

		accuracy; data quality and consistency	
7	Module 7: Recruitment Metrics – I	Time to hire; time to fill; recruitment efficiency; source effectiveness; hiring funnel interpretation	Lecture / Discussion / Case / Activity / Workshop
8	Module 8: Recruitment Metrics – II	Offer acceptance rate; selection ratio; recruitment funnel; quality of hire; manager decisions using recruitment data	Lecture / Discussion / Case / Activity / Workshop
9	Module 9: Retention Metrics – I	Attrition rate; retention rate; voluntary vs. involuntary turnover; identifying workforce risk	Lecture / Discussion / Case / Activity / Workshop
10	Module 10: Retention Metrics – II	Early turnover; exit analysis; turnover patterns; diagnosing causes; managerial interventions	Lecture / Discussion / Case / Activity / Workshop
11	Module 11: Learning & Development Metrics	Training participation; training cost; learning effectiveness; linking learning outcomes to business needs	Lecture / Discussion / Case / Activity / Workshop
12	Module 12: Performance & Productivity Metrics	Performance ratings; productivity indicators; goal achievement; performance distribution; interpreting performance data	Lecture / Discussion / Case / Activity / Workshop
13	Module 13: Compensation Metrics	Compa-ratio; pay positioning; pay structure basics; internal equity; using compensation data for managerial decisions	Lecture / Discussion / Case / Activity / Workshop
14	Module 14: Benefits & Workforce Cost Metrics	Benefits utilization; workforce cost analysis; cost trends; evaluating value from employee benefits	Lecture / Discussion / Case / Activity / Workshop
15	Module 15: Employee Engagement Metrics – I	Employee satisfaction; engagement indicators; eNPS; interpreting employee sentiment for managerial action	Lecture / Discussion / Case / Activity / Workshop
16	Module 16: Employee Engagement Metrics – II	Absenteeism; participation metrics; attendance patterns; engagement-risk signals; manager interventions	Lecture / Discussion / Case / Activity / Workshop
17	Module 17: Diversity & Inclusion Metrics	Gender ratio; representation; diversity indicators; inclusion measures; responsible	Lecture / Discussion / Case / Activity / Workshop

		interpretation of workforce diversity data	
18	Module 18: Workforce Data Handling & Dashboard Fundamentals	Types of workforce data; data cleaning basics; data preparation; dashboard purpose; design principles; layout, clarity and KPI selection	Lecture / Discussion / Case / Activity / Workshop
19	Module 19: Workforce Dashboard Creation	Excel formulas and data organization; workforce dashboard development; introductory Power BI; charts and visualization; management reporting and presentations	Lecture / Discussion / Case / Activity / Workshop
20	Module 20: Ethics, Privacy & Workforce Dashboard Project	Employee-data privacy; confidentiality; ethical use of workforce data; bias and responsible interpretation; student dashboard presentations, feedback and improvement	Lecture / Discussion / Case / Activity / Workshop

Course Evaluation:

Evaluation is a continuous process at SoIM. Students will be given individual/group projects/ assignments in ----------. Keeping in line with continuous evaluation at SoIM, the evaluation scheme is as follows:

Areas	Weightage

(I) Continuous Evaluation: *(Quizzes: 10 Marks, Assignments, Group/Individual Projects: 30 Marks*	40%
(II) Mid Term Examination	20%
(III) Final Examination	40%
Total	**100 %**
